

COURT REPORTING PROGRAM

EDUCATIONAL OBJECTIVE

The objective of the Court Reporting program is to prepare the student for an entry-level position as a court reporter, closed captionist, or CART reporter by developing his or her machine shorthand speed to 225 wpm. The program also includes training in English skills, Court Reporting English skills, legal and medical terminology, transcription, testimony, jury charge, literary, vocabulary, and the ability to type 60 net words per minute. The student also will be trained in courtroom and deposition procedures, computer-aided transcription, word processing, closed captioning, and realtime reporting. Typical workplace settings include courtrooms, television stations, closed captioning companies, court reporting firms, insurance companies, law offices, government offices, college campuses, and legislative bodies.

METHODS OF DELIVERY

Students may choose to enroll in either the resident (on-ground) program, in the online program, or in a combination of each. Completion time expectations are the same whatever delivery method(s) is/are chosen.

PROGRAM LENGTH

FULL-TIME day students should complete the program in approximately 31 months.

PART-TIME evening students should complete the program in approximately 62 months. Part-time evening students will be required to register for academic subjects that are offered only during the day. Only the academic subjects of English/vocabulary/medical terminology, keyboarding, and proofreading are offered during the part-time evening schedule. Therefore, a part-time student must attend at least two years on a full-time basis in order to complete the Court Reporting program. Part-time students may transfer to full-time prior to the beginning of each quarter. See the school director for class schedules before transferring to full-time.

IMPORTANT:

ACI does not guarantee or promise that a student will complete the Court Reporting program in the above-stated time period. Experience has shown that, based on individual needs and responsibilities of students, the program may take longer than the above-stated time periods. An individual's machine shorthand speed will increase according to his or her ability. Court Reporting is a unique program and not all students proceed or progress at the same pace. It is not the same as taking an academic course which can be specifically laid out in a quarter or semester and then completed by students at the same time. Students who do not complete the program in the above-stated time periods will continue to pay tuition on a pro rata basis until the program is completed.
